fábio galiano.

frontend & fullstack developer
Portugal • ready to relocate

work@fabiogaliano.com
github.com/fabiogaliano
linkedin.com/in/fabiogaliano

co-founder / cto • *tourflow.pt*
August - now — *(4 months)*

- Launched MVP to production, piloting with 3 tour operators managing daily operations
- Product Ownership - E2E: user research to design, full-stack development to devops, or operations
- Built with PocketBase, React, TypeScript, TanStack Router, Tailwind and shadcn/ui; self-hosted on automated CI/CD pipeline

frontend developer • *vintage city tours*
Jan - Jul 2025 — *(4 months)* • *Remote*

- Achieved 10x performance improvements by migrating from Wix to custom Astro solution with Tailwind
- Eliminated €400/year in costs by migrating to free-tier infrastructure: Custom Cal.com booking integration, Cloudflare Pages and Functions, Umami

frontend developer • *mercedes-benz.io*
Jul 2020 - Jan 2024 — *(4 months)* • *Remote*

- Contributed to global Mercedes Me customer portal serving millions of users for vehicle management, user settings, and connected services (micro-frontend architecture)
- Vue 2/3, Redux, Vite: Framework migrations, new feature development, and refactoring across multiple frontend modules
- Angular 1.6: Legacy system maintenance and bug fixes for older customer-facing applications

EDUCATION

computer engineering • *bachelor degree*

Universidade Autónoma de Lisboa • Lisbon, Portugal

Akademia Górniczo-Hutnicza (AGH) • semester • Kraków, Poland
