

fábio galiano.

fullstack product engineer

Portugal • open to relocate

work@fabiogaliano.com

github.com/fabiogaliano

linkedin.com/in/fabiogaliano

founding product engineer • *tourflow.pt*

August 2025 - now

- Full product ownership spanning research → design → full-stack development → DevOps → customer operations — to serving 5 tour operators in production
- STACK: PocketBase, React, TypeScript, TanStack Router, Tailwind, shadcn/ui

frontend developer • *vintage city tours*

Jan - Jul 2025 — (5 months)

- Rebuilt and redesign of a tour booking website achieving 4x booking increase plus a 10x performance improvement, and €400/year cost savings by migrating from Wix to custom Astro solution.
- STACK: Astro, Cal.com Tailwind, Cloudflare Pages & Functions, Umami Analytics

frontend developer • *mercedes-benz.io*

Jul 2020 - Jan 2024 — (3 years and 6 months)

- Contributed to Mercedes Me global customer portal serving t of users for vehicle management, connected services, and account settings.
- Worked across micro-frontend architecture: framework migrations (Vue 2 → Vue 3), new feature development, refactoring, and performance optimization
- STACK: Vue 2/3, Redux, Lerna, Vite, Angular 1.6

PERSONAL PROJECTS

liked.music • music exploratory tool leveraging AI for our liked songs

- Discovers emotional patterns in your music and intelligently matches songs to playlists using multi-factor scoring (semantic similarity, audio features, genre alignment, vector embeddings)
- STACK: TanStack Start (SSR), ai/sdk, React, TypeScript, Supabase, Last.fm, SSE for real-time progress

EDUCATION

computer engineering • *bachelor degree*

Universidade Autónoma de Lisboa • Lisbon, Portugal

Akademia Górniczo-Hutnicza (AGH) • semester • Kraków, Poland

SKILLS

Frontend Typescript React Vue.js Tailwind Astro HTML CSS

Fullstack React Router / Remix TanStack Start

Backend / Runtime Bun Node.js REST APIs Python

Database Postgres SQLite Pocketbase Supabase

DevOps Cloudflare AWS (SQS) CI/CD (Github Actions) Self-Host (Coolify)

Tools git Vite Vitest Claude Code Windsurf Figma (*learning*)
